### **Message from the Editor:**

What an incredibly busy start to 2008! I hope you all enjoy the articles as much as I have putting them together! Many thanks to all of the contributors! The teaching resources include so many fantastic materials, many available online, making classroom work so 'aktuell'. The music videos are a joy to watch and just make a wonderful resource for the classroom. And how full is the professional learning program for the year in each state. I can see some wonderful reports in the making! And then there is the National Conference in July on the Gold Coast - what wonderful timing for us in the south! I look forward to seeing many of you at the conference and to hearing from you all! And please keep those resources flowing so that everyone can benefit from your wonderful ideas.
